What is a REENTRY MYTH BUSTER?

This Myth Buster is one in a series of fact sheets primarily intended to clarify federal policies that affect formerly incarcerated individuals and their families. Each year, more than 600,000 individuals are released from state and federal prisons. Another 11.4 million cycle through local jails. When reentry fails, the social and economic costs are high — more crime, more victims, more family distress, and more pressure on already-strained state and municipal budgets.

Because reentry intersects with health and housing, education and employment, family, faith, and community well-being, many federal agencies are focusing on initiatives for the reentry population. Under the auspices of the Cabinet-level interagency Reentry Council, federal agencies are working together to enhance community safety and well-being, assist those returning from prison and jail in becoming productive citizens, and save taxpayer dollars by lowering the direct and collateral costs of incarceration.
