Bureau of Justice Assistance

The Bureau of Justice Assistance (BJA), a component of the Department of Justice's Office of Justice Programs, provides leadership and services in grants administration and criminal justice policy development to state, local, and tribal jurisdictions. Specifically, BJA provides funding to support law enforcement, combat violent and drug-related crime, and combat victimization. Through the development and implementation of policy, services, and sound grants management, BJA strengthens the nation's criminal justice system and restores security in communities.

Web-Based Tool to Support Case Planning

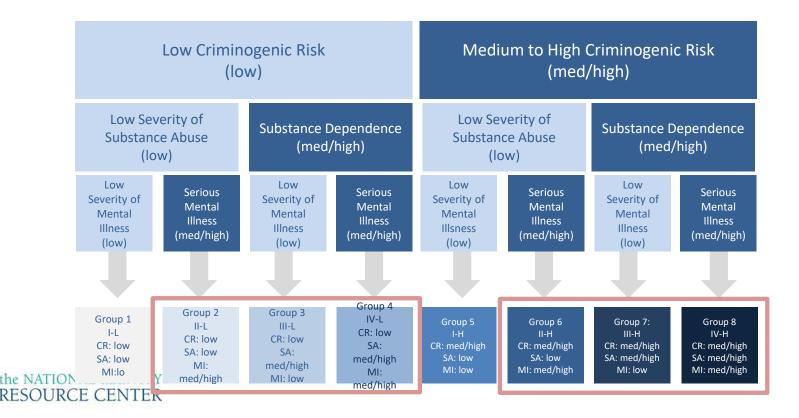

Collaborative Comprehensive Case Plans: Addressing Criminogenic Risk and Behavioral Health Needs

The Criminogenic Risk and Behavioral Health Needs framework (see below) introduced state leaders and policymakers to the concept of prioritizing supervision and treatment resources for people based on their level of criminogenic risk and needs and the severity of their behavioral health needs. Once these individuals are identified, criminal justice and behavioral health professionals can work together to develop and implement case plans that assist the participants in reducing their risk for recidivating and advancing their goals for recovery. The following tools and resources will help these professionals integrate critical behavioral health and criminogenic risk and needs information into comprehensive case plans that actively engage the participant and reflect a balanced and collaborative partnership between criminal justice, behavioral health, and social service systems.

Behavioral Health/Criminal Justice Framework

Specialized Housing Provider

Case plan holder sends the following information:

- · Specific supports, if any, the participant needs in order to succeed in certain housing situations
- · Legal circumstances that can impact housing
- · The participant's income
- . Details concerning whether the community supervisor will need to check in on the participant at home and if so, how regularly
- · A list of the participant's current medications

Case plan holder receives the following information:

- Services provided
- Housing rules
- · Updates on the participant's progress while housed, and if there are any disciplinary issues or behavioral changes
- . Changes, if any, in skills and ability to function independently

Back to Top

Peer Support

Case plan holder sends the following information:

 All information in the plan, so that the peer support specialist can fully understand goals, services, legal requirements/status, and recidivism risk

Case plan holder receives the following information:

- . Updates regarding compliance with conditions of release/diversion or community supervision, when required
- Any information that pertains to the person's status on community supervision or in diversion programming
- Schedule of required appointments, court, and community supervision appearances
- Needs related to application for public benefits, health
- Information about the participant's prosocial activity interests

LEAD CASE PLANNER PROFILE: CORRECTIONAL FACILITY

Franklin County Sheriff's Office

Franklin County, Massachusetts

NOTABLE FEATURES

- The Franklin County Sheriff's Office in Greenfield, Massachusetts was a Second Chance Act Reentry Program for Adults with Cooccurring Substance Use and Mental Disorders grantee in Fiscal Year 2013
- Jurisdiction geography: Rural; 71,372 residents
- . Size of correctional facilities and populations incarcerated: 250 men

PROGRAM DESCRIPTION

Under the leadership of Sheriff Christopher J. Donelan, the Franklin County Sheriff's Office (FCSO) implemented a trauma-informed, integrated substance use and mental disorders treatment program in 2014 for approximately 120 men who were sentenced and incarcerated. Most of these men were assessed as having high- to very high-criminogenic risk. Since then, the FCSO expanded program eligibility to pretrial detainees and now includes approximately 175 men. Although the FCSO only incarcerates men (women are housed in a regional facility in a nearby county), case management support is available through FCSO to both male and female participants post release. FCSO offers participants evidence-based interventions, including Integrated Dual Disorder Treatment (IDDT) case management for people while incarcerated and post release, Thinking for a Change (T4C), Dialectical Behavior Therapy (DBT), Acceptance and Commitment Therapy (ACT), Stages of Change and Motivational Interviewing, Seeking Safety, and Nurturing Parenting. Program participants also receive group therapy, peer mentoring, case management, education, and vocational services prior to release and are also connected to supported or affordable housing. As participants move through phases of the program they are transitioned to different sections of the jail with lower security levels until they are released.

FCSO staff use the following instruments to screen and assess program participants:

- PROXY static risk assessment
- Level of Service/Risk-Need-Responsivity (LS/RNR)
- Clinical diagnostic assessment
- Adverse Childhood Experience (ACE) scale
- Brief Situational Confidence Questionnaire (BSCQ)

The Psychological Flexibility Model Matrix Kevin L. Polk, Ph.D.

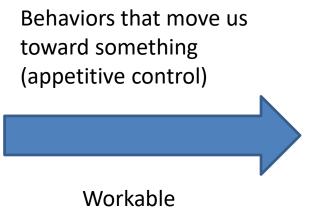

Zooming way out, when we break it down, behavior falls primarily into two directions:

Behaviors that move us away from something (adverse control)

Unworkable

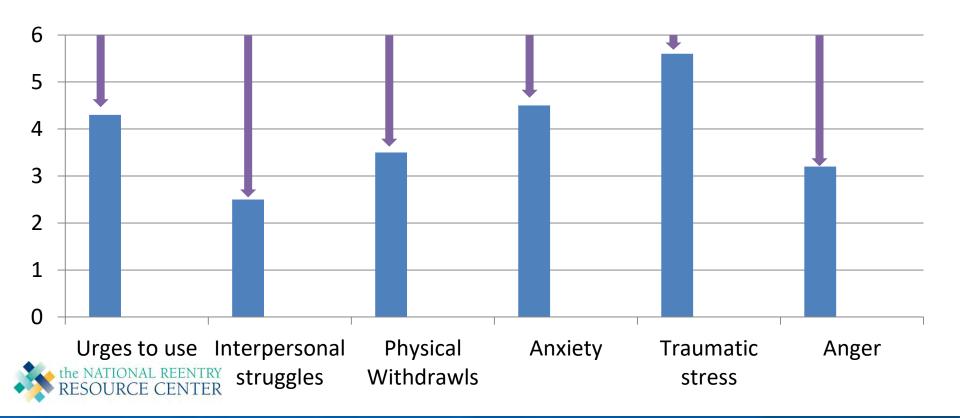

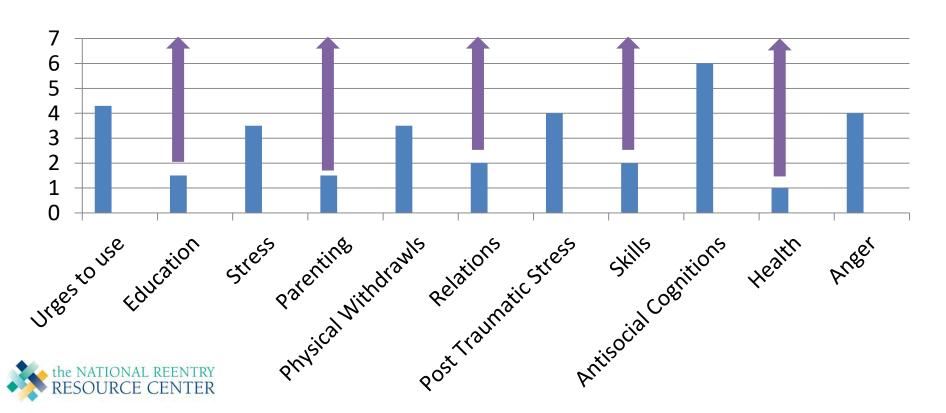

The behaviors of individual's stuck in the criminal justice system are dominated by behaviors governed by adverse control

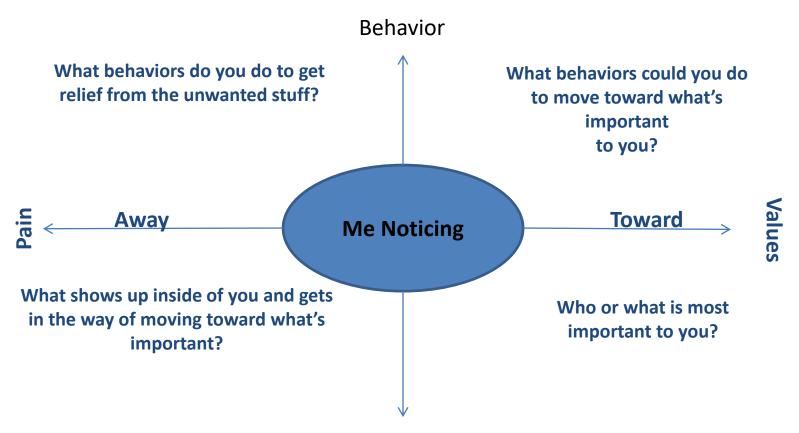

Condition Suppression

The Goal

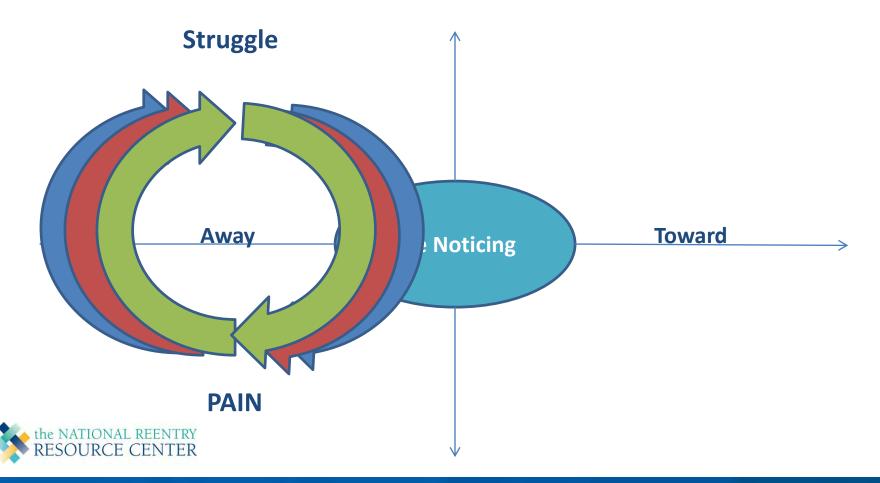

Internal Experience

FUNCTION: Structure the environment

Work Flow

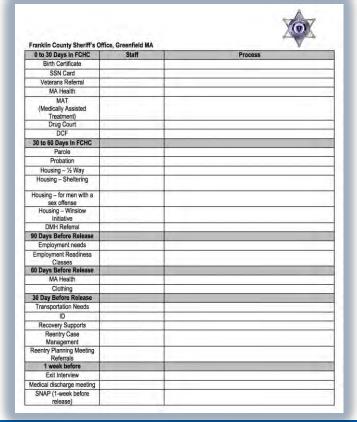

Re-entry Overview

- Reentry begins on day 1 of incarceration
- Counselors assess reentry needs and create a discharge plan
- A reentry planning meeting occurs in the last month of the incarceration
- Peer Mentors/Case Managers meet with clients prior to leaving FCHOC and provide post release peer support and linkage with community resources – clinical, medical, service provider, etc.
- Post Release Clinical Group
- A strong collaboration with the courts and probation
