

Technology and Criminal Record Clearance

September 5, 2018

Speakers

Michael Hollander, Supervising Attorney, Community Legal Services of Philadelphia

Matthew Stubenberg, Associate Director of Legal Technology, Access to Justice Lab, Harvard Law School

Jason Tashea, Legal Affairs Writer, American Bar Association, and Adjunct Professor, Georgetown University Law Center

Mr. Tashea's comments are made on his own behalf and not on behalf of the American Bar Association.

Clean Slate

CLEARINGHOUSE

A project funded by the U.S. Department of Labor
and the U.S. Department of Justice

Clearinghouse

- Online clearinghouse of each state's adult and juvenile record clearance policies, resources, guides, and legal service providers

Audience

- Legal service providers, reentry and workforce service providers, people with criminal records, policymakers

Goals

- Provide accessible, up-to-date information on record clearance policies across the country
- Increase capacity of legal service providers and create a community of practice for record clearance

cleanslateclearinghouse.org

Overview

- Introduction to record clearing and technology
- High level look at technology in record clearing practices
- Automating expungement petitions: Maryland and Pennsylvania
- Integrating automated expungements with case management systems
- A quick look at Clean Slate in Pennsylvania and beyond

Expungement Applications

- Can be public/client-facing or attorney-facing
- Can be manual or automated
- Can make a referral, determine eligibility, or complete forms

What's Required

- Basics
 - An expungement statute with objective factors
 - End users with internet access
 - Capacity to continually update and refine the tool
- Advanced
 - A useable dataset

Automating Expungement: Maryland

- Statewide web portal with all criminal cases that is (1) free, (2) no bot blocker, (3) includes all relevant information.
- Expungement law in Maryland is objective and does not require a court hearing.

Charge and Disposition Information

(Each Charge is listed separately. The disposition is listed below the Charge)

Charge No: **001** Description: **BURGLARY-FOURTH DEGREE**
Statute: **CR.6.205.(a)** Description: **BURGLARY- 4TH DEGREE-DWELL**
Amended Date: CJIS Code: **2 3030** MO/PLL: Probable Cause: **X**
Incident Date From: To: Victim Age:

Disposition

Plea: **OTHER PLEA**
Disposition: **NOLLE PROSEQUI** Disposition Date: **10/27/1998**
Fine: **\$0.00** Court Costs: **\$0.00** CICF: **\$0.00**
Amt Suspended: Fine: **\$0.00** Court Costs: **\$0.00** CICF: **\$0.00**
PBJ EndDate: Probation End Date: Restitution Amount: **\$0.00**
Jail Term: Yrs: Mos: Days:
Suspended Term: Yrs: Mos: Days:
Credit Time Served:

MDExpungement

- With a given case number, MDExpungement uses a web scraper to pull the HTML of the case from Maryland's portal.
- The HTML is parsed for the particular variables needed to make a determination of whether the case is eligible for expungement.
- The variables are run through an algorithm and the editable PDF petitions are populated.
- Over 61,000 expungement petitions have been printed since 2015.

 ☐ CIRCUIT COURT ☒ DISTRICT COURT OF MARYLAND FOR BALTIMORE City
City/County

Located at 5800 Wabash Avenue, Baltimore, MD 21215 Case No. Example
Court Address

Tracking # 123456789012

STATE OF MARYLAND vs. SMITH, JOHN 11/15/1974
Defendant DOB

PETITION FOR EXPUNGEMENT OF RECORDS
(ACQUITTAL, DISMISSAL, PROBATION BEFORE JUDGMENT, NOLLE PROSEQUI, STET, OR NOT CRIMINALLY RESPONSIBLE DISPOSITION)

(In this petition, references are to the Annotated Code of Maryland, and references to "crime" and to "criminal action" refer to any criminal offense other than a violation of the vehicle or traffic laws, ordinances, or regulations that does not carry a possible sentence of imprisonment.)

1. (Check one of the following boxes) On or about 10/08/2014, I was ☐ arrested, ☒ served with a summons, or
☐ served with a citation by an officer of the BPD-SOUTHERN DISTRICT
BALTIMORE City Law Enforcement Agency

Multiple Ways of Using the Expungement Tool

Use External Site to Expunge Cases

Enter Cases

Expungement API

- After scraping all of the data on Maryland's site, we can run people's names against the new database, allowing us to search using more fields.
- Allows other organizations to build applications on top of the database.
- Built into our CMS, Legal Server, so we know instantly if any client has eligible cases.

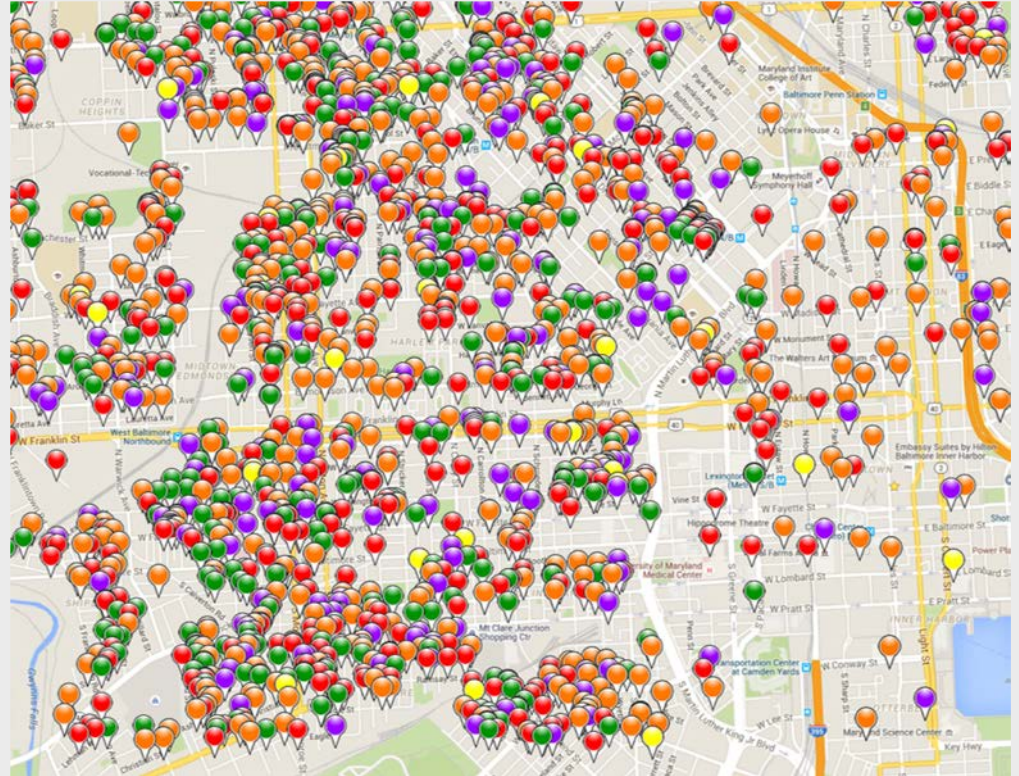

```

Expungement Map

- We ran every case through the expungement algorithm to determine how many cases were eligible.
- Geocoded defendants' addresses so we could map eligible cases.
- Mail letters to defendants when we hold a clinic near them.

Lessons Learned

- Originally designed for pro-se use. However, the biggest users are attorneys.
- Need to anticipate lots of edits and updates.
 - Changes in the law
 - Changes in court procedures
 - Changes in forms
 - Recommendations from attorneys
 - Bugs
- Lots of disclaimers!

Automating Expungement: Pennsylvania

- Very similar to MD
- "Headless" browser searches the PA court database, downloads dockets, scrapes text from the dockets, runs a person's record through an algorithm, and generates word-editable petitions
- Additional tool for determining whether cases are potentially sealable
- Over 45,000 petitions generated statewide since 2011

1010110101101010010010101001001001001001001001001001011100101001010100100100101100101010

101011010110101001001010100100101001001001001011100101001010100100100101100101010

The screenshot displays the CPCMS interface with several overlapping forms and panels:

- Search Panel (Top Left):** Includes a search bar and filters for "Last Name", "First Name", "Date of Birth", "County", "Docket Type", "Case Category", "Case Status", and "Date Filed".
- Case List Panel (Left):** A vertical list of case categories, each with a magnifying glass icon and a label (e.g., MC, CP, MC, MC, MC, MC, MC).
- Disposition Table (Center):** A table with columns: Seq., Orig Seq., Grade, Statute, Statute Description, and a dropdown arrow. It lists three entries:

Seq.	Orig Seq.	Grade	Statute	Statute Description	
1	1	F3	18 § 3921 §5A	Theft By Unlaw Taking-Movable Prop	00
2	2				
3	3				
- Client Information Form (Right):** Fields for "Client's Name" (First Name: john, Last Name: smith), "Date of Birth" (10/26/1974), and a "Redo CPCMS Search" button.
- Docket Sheets download (Bottom Center):** A section with links for "Summary Docket" and "MDJ Summary Docket", and a table of docket numbers:

	Docket Number
<input checked="" type="checkbox"/>	Check/Uncheck A
<input checked="" type="checkbox"/>	MC-51-CR-00101
<input checked="" type="checkbox"/>	CP-46-CR-00043
<input checked="" type="checkbox"/>	MC-51-CR-00109
- Case Details Form (Right):** Includes fields for "COMMUNITY LEGAL SERVICES, INC", "BY: Michael Hollander, Esquire", "Identification No. 208077", "1424 Chestnut Street", "Philadelphia, PA 19102", "Phone: 215.981.3794", and "Attorney for John Smith".
- Case Caption (Bottom Right):** A section titled "ORDER" containing the text: "AND NOW, this ____ day of _____, 20__, after consideration of the Petition for Expungement Pursuant to Pa.R.Crim.P. 790 presented by john smith, it is ORDERED that the Petition/Motion is _____." Below this is a paragraph stating: "All criminal justice agencies upon which this order is served shall expunge all criminal history record information from defendant's arrest record pertaining to the charges below. Criminal history record information includes information collected by criminal justice agencies..."

Databases: Great for Audits, Funders, and Legislators

- **Internal audits:** How are we doing? Are we reaching the right clients? Did we prepare an expungement for that client?
- **Funders:** How many expungements did we file last year? How many records were fully cleared? What is the value of our services?
- **Legislators:** What are our bona fides? What is the state of the world (statistically speaking)? Who would benefit?

Integrating Tools within Case Management Systems

- This is the future of legal tech
- Crude integration: PA tool emails our case management system
- Tighter integration: PA tool has an API, Legal Server can now connect to APIs
- Advantages: Easier, quicker to check; tight integration means including checks in normal processes; can include other checks at same time

Crude Integration

1. Type client info into CMS

2. Retype client info into expungement tool

3. Email sent to CMS with expungement petitions

4. CMS updated with expungement petitions

Tight Integration Using an API

1. Type info into CMS

2. CMS uses API to send info to expungement tool

3. Expungement tool operates without human intervention

4. Expungement tool uses API to send info back to CMS

5. CMS is updated with expungement petitions/info

Iterative Model of Development

- Rather than start with the most complicated, fully featured program, start small . . .
- If your program is being used, iterate on it in the most useful way.
- Continue to iterate, each time evaluating the value of the new portion of the program vs the cost.
- Abandon projects that don't pan out and focus hard on those that do.

Thank You
