The Council of State Governments Justice Center

We are a national nonprofit, nonpartisan organization that combines the power of a membership association, serving state officials in all three branches of government, with policy and research expertise to develop strategies that increase public safety and strengthen communities.

How We Work

- We bring people together
- We drive the criminal justice field forward with original research
- We build momentum for policy change
- We provide expert assistance

Our Goals

Break the cycle of incarceration

We assist those working inside and outside of government to reduce both crime and incarceration among youth and adults in contact with the justice system.

Improve health, opportunity, and equity

We work across systems to develop collaborative approaches to improve behavioral health, expand economic mobility, and advance racial equity for people and communities affected by the justice system.

Expand what works to improve safety

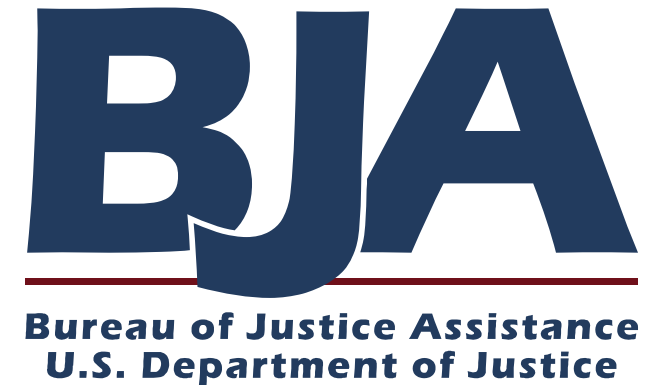

We help leaders understand what works to improve public safety and assist them to develop strategies, adopt new approaches and align resources accordingly.

Justice and Mental Health Collaboration Program

The Justice and Mental Health Collaboration Program (JMHCP) supports cross-system collaboration to improve public safety responses and outcomes for individuals with mental illnesses (MI) or co-occurring mental illness and substance abuse (CMISA) who come into contact with the justice system.

The U.S. Department of Justice Bureau of Justice Assistance

Mission: BJA provides leadership and assistance to local criminal justice programs that improve and reinforce the nation's criminal justice system. BJA's goals are to reduce and prevent crime, violence, and drug abuse and to improve the way in which the criminal justice system functions. In order to achieve such goals, BJA programs illustrate the coordination and cooperation of local, state, and federal governments. BJA works closely with programs that bolster law enforcement operations, expand drug courts, and provide benefits to safety officers.

Visit the [BJA website](#) to learn more.

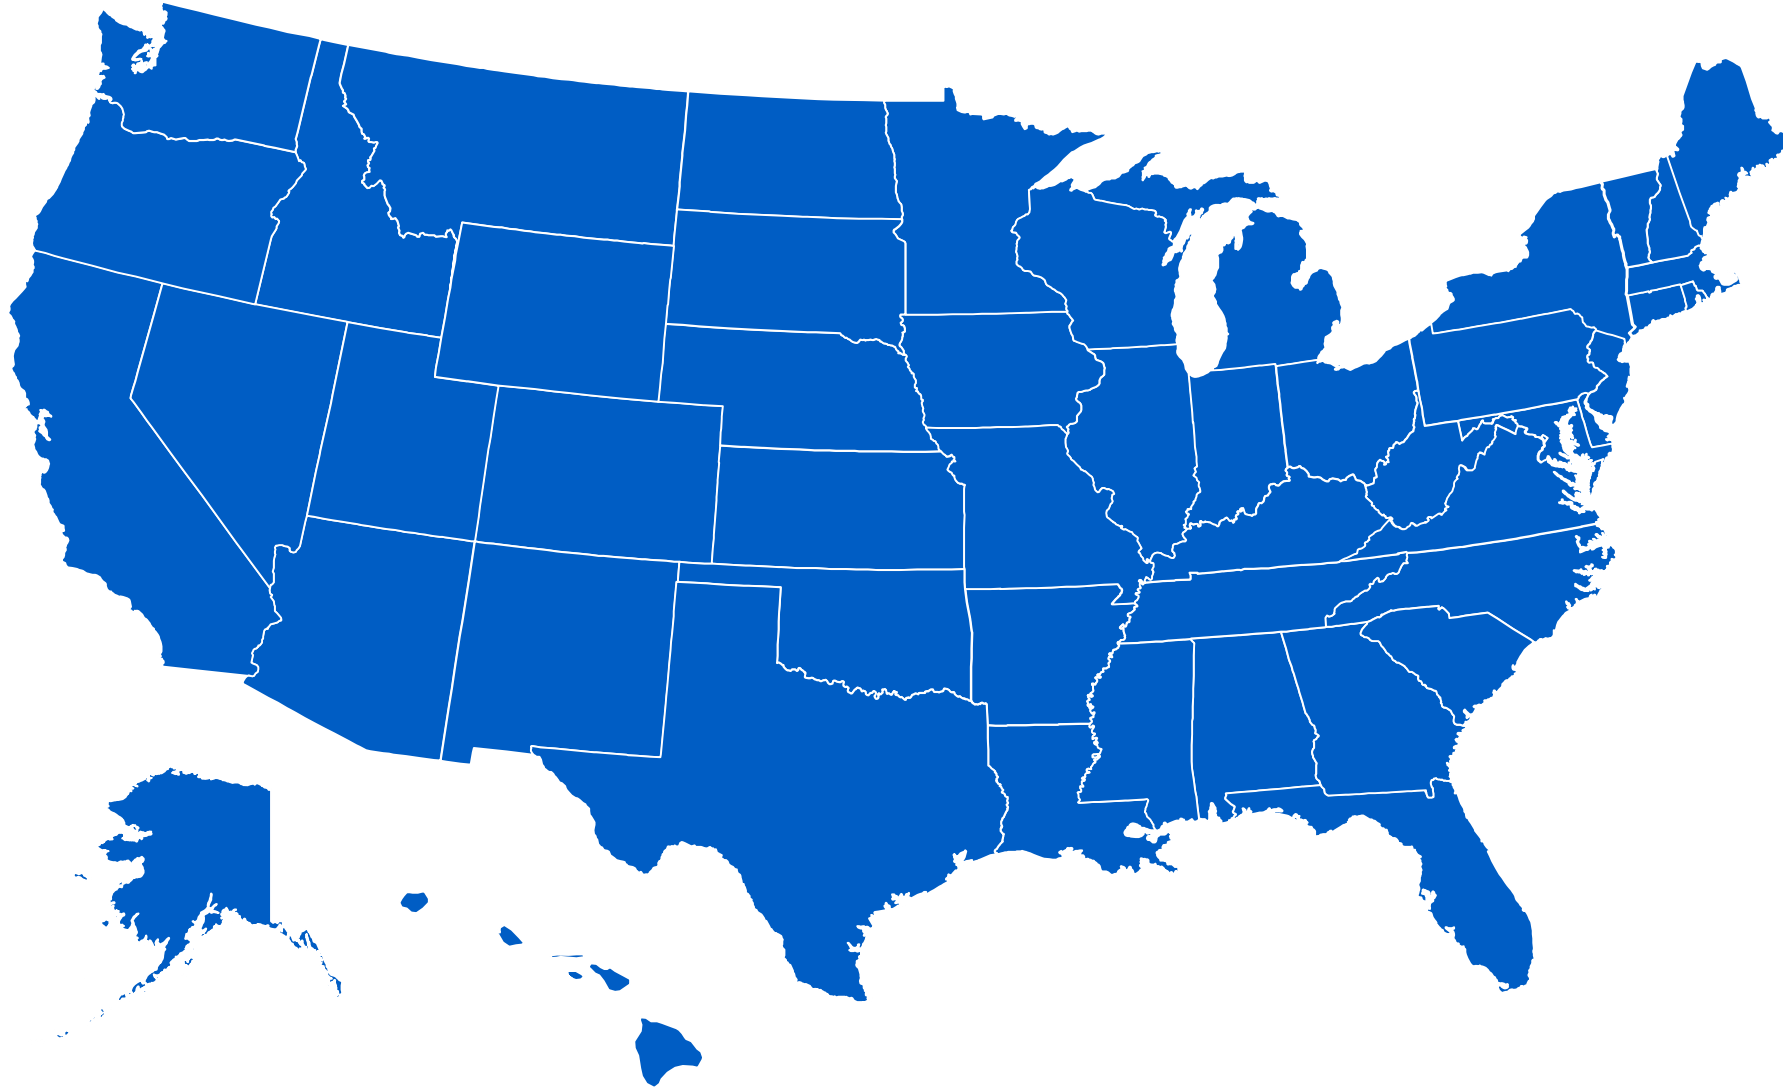

The Justice Management Institute (JMI)

- Arlington, VA non-profit organization
- Provides cutting edge research, education and training programs, and technical assistance in justice policy, planning, and operations

NNCJCC was created in 2010 to provide a forum for CJCCs to learn from each other and to build capacity for local system improvement.
